Academic Dress

Academic dress, consisting of cap, gown, and hood, originated about the twelfth century, and was worn primarily for warmth. Subsequently, the material of the gown and the lining, and shape of the hood, represented the economic, social, and academic status of the wearer.

In the United States, the great majority of the academic costumes now worn are in accordance with the general provisions of the Intercollegiate Code of 1895, which was revised in 1932 and again in 1960. Under this code, the bachelor's gown has pointed sleeves, the master's gown has oblong sleeves with an arc at the bottom, and the doctor's gown has bell-shaped sleeves. Black is the traditional color for gowns, although at the University of Illinois at Urbana-Champaign, academic dress has been designed specifically for the Institution: blue gowns with orange accents and blue mortarboards.

The bachelor's and master's gowns are untrimmed. The doctor's gown is faced down the front with velvet and has three bars of velvet across the sleeves. The facing and bars may be black or blue, as is the case at Illinois, or may be the color of the subject to which the degree pertains. The bachelor's gown is worn closed; the master's and doctor's gowns may be worn open or closed.

The bachelor's hood is 3 feet in length; the master's, 3 1/2 feet; and the doctor's, 4 feet. Hoods are lined with the official color or colors of the college or university conferring the degree. At Illinois, the lining is orange and blue. The colored velvet border of the hood, which is 2 inches, 3 inches, and 5 inches wide for the bachelor's, master's, and doctor's degree, respectively, identifies the faculty or field of study to which the degree pertains.

The mortarboard cap is standard in the United States. Usually, all tassels are black, but where the bachelor's graduates do not wear hoods, as at Illinois, the color of the cap tassel indicates the department of study. Candidates for degrees wear tassels on the right front quadrant of their caps and move them to the left front quadrant after degrees are conferred. Caps are considered a part of the costume and are customarily removed only during an invocation or benediction, and then by men only. The orange and blue braided cords worn from the left shoulder by bachelor's graduates signify University Honors.

The Jewel of Office worn by the President was presented to the University of Illinois Alumni Association. It is emblematic of the Office of the President and is worn at all formal academic ceremonies. On the gold collar, also worn by the President, are engraved the names of the Presidents of the University and their years of service. For all academic purposes, including trimmings of doctor's gown, edging of hoods, tassels of caps, and linings of banners, the colors associated with the different disciplines are indicated below.

ACES - Maize	Law - Purple

** The tassel is worn on the right-front quadrant until the degree is conferred.*
